Safety Guidelines

This manual contains notices you have to observe in order to ensure your personal safety, as well as to prevent damage to property. The notices referring to your personal safety are highlighted in the manual by a safety alert symbol, notices referring only to property damage have no safety alert symbol. These notices shown below are graded according to the degree of danger.

⚠ DANGER
indicates that death or severe personal injury **will** result if proper precautions are not taken.

⚠ WARNING
indicates that death or severe personal injury **may** result if proper precautions are not taken.

⚠ CAUTION
with a safety alert symbol, indicates that minor personal injury can result if proper precautions are not taken.

CAUTION
without a safety alert symbol, indicates that property damage can result if proper precautions are not taken.

NOTICE
indicates that an unintended result or situation can occur if the corresponding information is not taken into account.

If more than one degree of danger is present, the warning notice representing the highest degree of danger will be used. A notice warning of injury to persons with a safety alert symbol may also include a warning relating to property damage.

Documentation for WinCC Basic / Options

<div style="text-align: right; font-size: 2em;">1</div>

Introduction

The Information System is the online help of WinCC, which documents the functions of WinCC. When you install WinCC, the corresponding Information System is installed along with it. If you install additional options to WinCC Basic, the existing Information System will be supplemented with the documentation of the newly added functions.

Independent of this, you also download the WinCC Information System from the Internet. The following table shows which documentation is available in the Internet and in which language.
